Jet Suction S-500

Oil suction syringe with transparent, graduated body — the mechanic's friend.

Features

- Made of light, easy-to-handle engineering plastic.
- The transparent body makes it easy to check the contents (oil, etc.).
- The interior does not rust, preventing foreign matter from contaminating oil, coolant and other contents.
- Graduations allow accurate oil changing and filling.
- A unique design and transparent colour ring enhance the product's appeal.

Applications

Construction machinery, agricultural machinery, vehicles, general industrial machinery and many other fields.

Examples of use

- Draining water from the fuel tanks of civil-engineering and construction machinery; oil changes.
- In vehicle maintenance: oil changes for differentials, transmissions and similar.
- In agriculture: oil changes on tractors and similar, draining water from fuel tanks, and drawing off fuel in the off season.
- Oiling the various parts of machinery.

Specifications

Product	Jet Suction
Model	S-500
Dimensions	Length 410 mm, barrel $\varnothing$ 65 mm
Weight	735 g
Capacity	500 cc, graduated
Hose	Length 520 mm, $\varnothing$ 12.5 mm
