SAVER L-17

Air-operated grease pump for pail cans — the patented system. One unit that does the greasing work of five people with ease.

Developed for high efficiency, high performance and labour saving at a running cost of barely one cup of coffee a day. One unit serves as two: in about five minutes it converts between mobile and fixed (mounted) use.

Features

- High-volume greasing: continuous discharge of 500 g/min.
- High-pressure greasing with adjustable delivery: discharge pressure 500 kgf/cm².
- Greases high and distant points: feeds up to 30 m.
- Freely mobile on large $\varnothing$ 200 mm wheels.
- Rugged, shock-resistant body built for hard use.
- The hose stows on its hanger and the pump on its holder.
- Works with all commercial pail cans, including resin ones.
- Suction rubber plate leaves no grease behind in the used pail.
- “Akadama” opener included for opening pails and draining the filter-regulator.

Applications

In the field, maintenance shops and production lines; mounted on service cars, excavators and other construction machinery, and other vehicles and ships.

SAVER L-17 specifications

Product	Saver grease pump
Model	L-17
Dimensions	$\varnothing$ 325 mm, pump length 580 mm; floor space 500 × 500 mm
Weight	20 kg
Discharge pressure	500 kg/cm ²
Discharge volume	500 g/min
Grease	Pail-can grease, consistency No. 1
Working air pressure	Summer 8 kg/cm ² , winter 9 kg/cm ²
Accessories	5 m high-pressure grease hose (10/15/20/30 m also available), grease pistol (360° delivery), swivel-hose set, filter-regulator, air-gauge set, support hose, akadama opener
